Electronically filed verification of master address list forms shall be prepared in substantial compliance with EDC 2-100, *Verification of Master Address List*, and saved in .pdf format with a .pdf filename extension.

- Electronically filed master address lists shall contain a list of creditor names and addresses, prepared in strict compliance with the **Name and Address Standards** set forth in form EDC 2-190, Revised Guidelines for the Preparation of Master Address Lists, and saved in a “pure text” format (not delimited), such as MS-DOS text or ASCII (DOS) text, with a .txt filename extension. Electronically filed master address lists saved in word processing format, a delimited text format, or a generic word processor text format or without a .txt filename extension will not be uploaded.

- All new case documents for a particular debtor or debtors shall be included and uploaded together as part of the same Chapter 7 Petitions Batched for Trustee Assignment batch. The names of all files related to the voluntary petition for a particular debtor or debtors should include the same debtor zip code and debtor name in the filename.
- Chapter 7 Petitions Batched for Trustee Assignment batches filed as incomplete (“skeleton”) filings need only include the ‘minimum documents’ listed on form EDC 2-035, Required Documents and Fees. However, the remaining, or ‘deficient,’ documents CANNOT be batch filed later. Deficient documents must be filed using the Single File Upload feature, the **Filing Type New Case Deficiencies**, and the appropriate **Document Type** for each deficient document.
- If a verification of master address list form file is included in a Chapter 7 Petitions Batched for Trustee Assignment batch, a master address list as text file with the same debtor zip code and debtor name combination in the file name must also be included in the same batch. Likewise, if a master address list as text file is included in a Chapter 7 Petitions Batched for Trustee Assignment batch, a verification of master address form file with the same debtor zip code and debtor name combination in the filename must be included in the same batch.
- No more than one voluntary petition file, verification of master address list form file, master address list as text file, statement of social security number(s) file, application to pay fee in installments file, application to proceed in forma pauperis file, statement regarding ownership of corporate debtor/party file, waiver of exemption file, or statistical data file with the same debtor zip code and debtor name combination in the filename may be included in a Chapter 7 Petitions Batched for Trustee Assignment batch.

- It is possible to file more than one other new voluntary chapter 7 case document (NEWO) with the same debtor zip code and debtor name combination in the filename. Refer to the instructions outlined below in 2(d).

How to Create a Chapter 7 Petitions Batched for Trustee Assignment Batch

1. Except as noted above, save each document to be uploaded in a separate file (one document per file). Save the master address list as a text file with a filename extension of .txt. Save the statistical data as a pipe-delimited text file with a filename extension of .txt. Save all other documents as .pdf files with a .pdf filename extension.
2. Use the following naming convention to name each file to be uploaded as part of a Chapter 7 Petitions Batched for Trustee Assignment batch:

DebtorZipCode – XXXX – DebtorName - S.pdf

where

- a. **DebtorZipCode** represents the first five digits of the zip code in the address on the petition used to establish venue (the address of the debtor's domicile, residence, principal place of business, or principle assets). All zip codes in the names of files included in a Chapter 7 Petitions Batched for Trustee Assignment batch must be from the same trustee assignment pool. For Trustee Assignment pools, see "Blind" Trustee Assignment Batching Procedure and Guidelines, EDC 2-050 and EDC 2-051.
- b. **XXXX** is one of the following codes that indicate the type of document in the file.
 - VOLP7** - voluntary petition – chapter 7
 - MTRX** - verification of master address list
 - CMX** - master address list as a text file
 - SSN** - statement of social security number(s)
 - INST** - application to pay fees in installments
 - IFP** - application to proceed in forma pauperis
 - COS** - statement regarding ownership of corporate debtor/party
 - WEX** - waiver of exemptions
 - NEWO** - other new voluntary chapter 7 case document
 - STAT** - statistical data as a pipe-delimited text file
- c. **DebtorName** is the last name, or first initial and last name, of the debtor or debtors named in the petition.
- d. To prevent duplicate filings, filenames may only be used once by you within 30 days. **S** represents one or more digits, or letters, or a combination of digits and letters, that will uniquely identify files with the same case number, docket control number, and document code in the filename, and may include portions

of account numbers or client initials, if you choose. For example, declarations of three different individuals (Jane Doe, John Q. Public, and Mary Jean Roe) in support of a motion with docket control number ABC-8 may be submitted within 30 days of each other for case number 04-50001 in files named 2004-50001-DECL-ABC-8-1JD.pdf, 2004-50001-DECL-ABC-8-1JQP.pdf, and 2004-50001-DECL-ABC-8-1MJR.pdf.

The following is an example of properly named .pdf and .txt files in a Chapter 7 Petitions Batched for Trustee Assignment batch:

Batch 1 (voluntary petitions and other documents for more than one debtor with zip codes from the same trustee assignment pool)

95626-VOLP7-LHARRIS.pdf
95626-MTRX-LHARRIS.pdf
95626-CMX-LHARRIS.txt
95626-STAT-LHARRIS.txt
95626-SSN-LHARRIS.pdf
95814-VOLP7-TJONES.pdf
95814-MTRX-TJONES.pdf
95814-CMX-TJONES.txt
95814-STAT-TJONES.txt
95814-SSN-TJONES.pdf

3. Once you have saved the files you wish to upload as a batch, you must compress them into an Archive, or .zip, file. This allows you to upload one file containing all of your documents. To create a .zip file using WinZip software without leaving Windows Explorer:
 - a. Select the .pdf document files and .txt master address list files you want included in the .zip batch, right click, choose **WinZip** and then **Add to Zip File** from the context menus. The **Add** dialog box will appear.
 - b. Click the **New** button and browse to the directory where you would like your .zip file created. Enter a name in the **File Name** text box. (There is no naming convention for the .zip file.)
 - c. Then click the **Add** button. In the WinZip interface window, you should see a list of the .pdf document files and .txt master address list files in the batch. Additionally, a .zip file should exist in the directory you chose with the name you indicated via the interface.
4. You are now ready to upload the .zip file containing your batch as follows.
 - a. Log on to *e-CalWebFiling* and click the **Batch Upload** button.

- b. Select the **Chapter 7 Petitions Batched for Trustee Assignment** radio button.
 - c. Click the Browse button and browse to the .zip batch file you just created. The path to your .zip batch file should automatically fill the text box beside the **Browse** button.
 - d. Click the **Submit** button to complete your upload.
